

Order DME the way you order everything else.

No fax. No phone tag. No paperwork chase. Parachute Health pre-qualifies orders for insurance upfront, so you can submit, track, and manage DME orders digitally from any device.

<5 min

Average time to place
a complete order

WHY CLINICIANS SWITCH

Documentation made simple

Parachute guides you through documentation requirements before submission, so orders arrive complete the first time.

Real-time order tracking

You and your patients can track every order from submission to delivery. No more phone calls to check status.

Sign from anywhere, any way

Physicians can sign via text, email, on-screen, or delegate to staff with signature authority. No new software or workflow changes required.

Free platform + EHR integrations

Integrate with EHRs such as eClinicalWorks, athenahealth, and PointClickCare free of charge.

One platform for all DME and supplies

Order across categories such as mobility, wound care, oxygen, and CGM in one place with one login.

HIPAA secure, SOC 2 certified

Fully encrypted and audit-ready. Trusted by 5+ million patients and 300,000+ clinicians nationwide.

HOW IT WORKS

1

Book a free demo

Scan QR or visit link below

2

Get set up in minutes

Parachute reps are available for
guided training

3

Place your first order

Experience the efficiency of the
Parachute Platform

4

Follow order progress

Stay in the loop without
having to call suppliers

See how simple DME ordering can be.
